

Tried. Trusted. True.

Since 1978

- ✓ **Frac flowback tanks** 1.2 – 5.0 mPa WP
- ✓ Gas capacities up to 1500 e³m³/day
- ✓ Fluid volumes from 9 m³ to 24 m³

- ✓ **High stage separators** up to 13.8 mPa WP
- ✓ Gas capacities up to 2250 e³m³/day
- ✓ Fluid capacities up to 1200 m³/day
- ✓ Inline sand cleanup capability

- ✓ **Line heaters** up to 69 mPa WP
- ✓ Abrasive resistant coils and removable chokes for sand flowback
- ✓ Heating capacities from 0.5 to 6.0 MMBTU/hr

- ✓ **Pressurized storage vessels** up to 1000 kPa WP
- ✓ Fluid volumes up to 48 m³
- ✓ Vent gas measurement capabilities

Other accessory equipment including: flanged flowlines, emergency shut-down valves, manifolds, propane systems, circulation equipment, flare stacks and perf ball catchers.

All equipment is sour service approved and maintained to industry standards
